Value of works

Council calculates the cost of works on the estimated 'market price' for the completed project. This may not necessarily reflect the actual cost of the development to the applicant, for example, an applicant may source materials free or second hand and use their own labour (owner-builder).

Council uses building cost indicators contained in the current addition of the Rawlinson's Construction Cost Guide. A list of the common development types and rates are included in the guidelines.

Fees and Charges

Application fees and charges will be determined by Council based on the estimated cost provided above and are to be paid when you lodge the application. Please contact the Planning and Development Department if you require a quote of the applicable fees.
